May 2026 Economic Review

Headline inflation (NCPI) in May 2026 was 11.66%, compared with 10.89% in April 2026; the increase is attributable to a low base-effect and higher petrol prices. The NCPI outturn for May was at the highest level in two years. It took average inflation during 11MFY26 to 6.66%, compared with 4.73% same period last year. Inflation is expected to remain in the double digits until July 2026 and is likely to revert to high single digits through FY27e.

Pakistan's current account balance for April turned negative—a deficit of USD324mn, compared with a surplus of USD1,134mn in March. This was the first CA deficit after three consecutive monthly CA surplus. This largely emanated from a MoM doubling of petroleum imports (as per SBP data). CA during 10MFY26 was USD252mn deficit, compared with a surplus of USD 1,662mn same period last year. SBP's Forex reserves rose to its highest level since early 2022, at USD 17.15bn by 22 May—implying a healthy import cover of about three months.

FBR's tax collection reportedly fell short of target by a wide margin (around PKR800bn), which may not bode well for the FY27 Budget.

Equity Market Review

Pakistan market continued to recover in May. The KSE-100 index rose 6.73% on top of rebounding 9.58% in April. The KMI-30 Index similarly rose 7.01% in May. FY26TD, the KMI-30 index is up an impressive 35.49% while the KSE-100 index is up 38.48%.

Key developments during the month included: (i) the IMF BoD approved the disbursement of around USD1.3bn for Pakistan, after successful third/second review of the EFF/RSF programs; (ii) Pakistan raised USD250mn from an inaugural Panda bond for three years at 2.50%, while the issue saw significant investor interest; (iii) the US and Iran remained in discussions for a deal to end the Middle East war; and (iv) Fauji Fertilizer signed a MoU with a Chinese company to develop a coal-to-gas project for the manufacturing of fertilizers.

Insurance companies were among key net buyers, of USD12.8mn. Companies and Banks were major net sellers, of USD3.9mn and USD0.9mn, respectively. Foreign investors were net sellers of USD17.2mn; they have cumulatively sold equities worth USD666mn FYTD.

Money Market Review

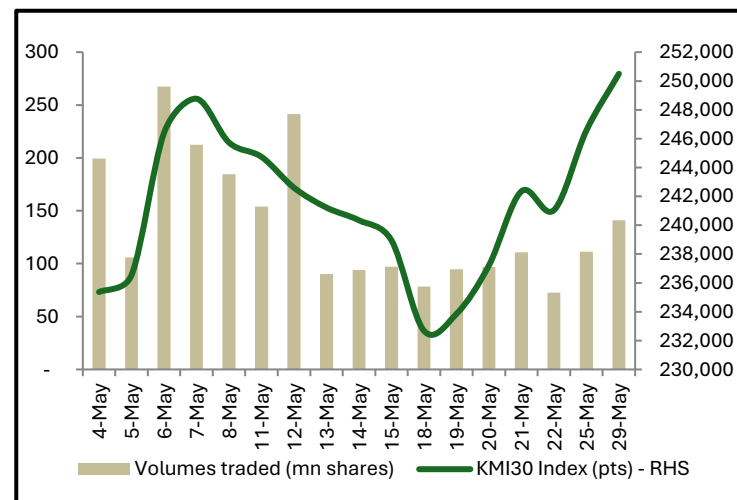

During May 2026, 3M, 6M and 12M KIBOR rates increased by 48 to 60 bps to close at 12.24%, 12.50% and 12.94%, respectively. Similarly, secondary market T-Bill yields increased in the range of 25 to 50 bps and closed at 11.94%, 12.37% and 12.52%, respectively. Yields on longer-tenor PIBs changed in the range of -48 to +9 bps, whereby 3Y, 5Y and 10Y PIB yields closed at 12.62%, 12.37% and 12.75% respectively. In the primary market, two T-bill auctions were conducted during the month, where PKR 1.617tn worth of bids were accepted against a target of PKR 1.450tn, with major acceptance in the 3-month instrument.

On the Islamic front, the government raised PKR 225.90bn through auctions of 1Y, 3Y, 5Y and 10Y floating-rate and fixed-rate Ijarah. The government received bids worth PKR 682.38bn against a target of PKR 550bn. In the foreign exchange market, the PKR appreciated against the USD by PKR 0.27 in the interbank market and by PKR 0.49 in the open market, closing at PKR 278.50 and PKR 279.56, respectively.
