Mutual funds that purchase shares become part owners in the companies. The companies' performance, domestic and/or industry outlook with respect to technological and consumer behavior dynamics, market activity and the larger economic scenario influence the price of these shares. Moreover, lack of trading in the investee companies' securities may result in liquidity crisis. When the economy is expanding, the outlook for many companies is positive and the value of these shares may

rise, and vice versa. Share prices are also affected by the quality of the management of investee companies.

- (2) **Government Regulation Risk** - Government policies or regulations are more prevalent in some securities and financial instruments than in others. Funds that invest in such securities may be affected due to change in these regulations or policies, which directly or indirectly affect the structure of the security and/or in extreme cases a governmental or court order could restrain payment of capital, principal or income.
- (3) **Credit Risk** - Credit Risk comprises default risk, credit spread risk and down grade risk. Each can have negative impact on the value of the income and money market instruments including Sukuks etc.
- (4) **Default Risk** - The risk that the issuer of the security will not be able to pay the obligation, either on time or at all;
- (5) **Country or Political Risk** – The uncertainty of returns caused by the possibility of a major change in the political or economic environment of the country such as break down of law and order, war, natural disasters, etc. and any governmental actions or legislative changes or court orders restraining payment of principal or income.
- (6) **Price Risk** - The price risk is defined as when the value of the Fund, due to its holdings in such securities rises and falls as a result of change in interest rates.
- (7) **Liquidity Risk** – Liquidity risk is the possibility of deterioration in the price of a security in the Fund when it is offered for sale in the secondary market.
- (8) **Settlement Risk** – At times, the Fund may encounter settlement risk in purchasing / investing and maturing / selling its investments which may affect the Fund's performance etc.
- (9) **Reinvestment Rate Risk** – In a declining interest/ markup rate economic environment, there is a risk that maturing securities or coupon payments will be reinvested at lower rates, which shall reduce the return of the Fund compared to return earned in the preceding quarters.
- (10) **Sovereign Risk** - Payment of bonds/ notes may be affected by the economic and political events in the country of the relevant issuer. The occurrence of a sovereign risk event could result in the loss of all or a portion of the principal invested, as a result of any economic or political circumstance.

Participants are advised to read the relevant clauses of the Fund's Trust Deed for more detailed information regarding this clause.
- 8.11.2 Risk specific to foreign investments: The Fund may invest outside Pakistan & such investments may be exposed to additional risks including political, economic & exchange rate risks that may reduce the value of the investments. However, evidence shows that diversifying internationally tends to reduce the overall volatility of the portfolio and thus may reduce risks for participants.
- 8.11.3 Investment in the Islamic Pension Fund is suitable for participants who have the ability to take the risks associated with financial and capital market investments. Capital invested in the financial and capital markets could, in extreme circumstances, lose its entire value. SR.No. 0005

July 03, 2025

OPINION OF SHARIA ADVISOR ON LUCKY ISLAMIC PENSION FUND

I, as Sharia Advisor of Lucky Investments Limited, am issuing an opinion on Lucky Islamic Pension Fund (LIPF).

In light of above, my opinion is as follows:

I have reviewed the Security structure of the fund, the Modes of Investments, the Trust Deed, the Offering Document and Term Sheet of LIPF and based on the information available to me, I have not observed any information to conclude that aforementioned are not compliant as per the provisions of Sharia Principles and Rules.

The Fund is based on the principle of Investment Agency (Wakalat-ul-Istithmar) where LIL in the capacity of Wakeel (Agent) shall manage the funds received from the investors and invest on their behalf in Sharia Compliant securities as permitted by Rules, Regulations, and the Sharia Advisor.

Based on the above, I have determined that all the provisions of the fund and its operations are Sharia compliant (without involving Gharar and Riba) and in accordance with criteria established. Therefore, this concludes that there are no Sharia objections on LIPF.

Allah is the guide to success.

Mufti Muhammad Hassaan Kaleem,
Sharia Advisor,
Lucky Investments Limited.
