# July 2025 Economic Review

Inflation for July came in at 4.1% compared with 3.2% in the previous month. Food inflation rebounded 2% MoM in July, while a sharp increase in consumer gas tariffs was another key factor. Core inflation was, however, more stable—around 7.4%, similar to the June outturn of 7.6%.

The SBP maintained the policy rate at 11.0% in the July MPC. It adopted a cautious stance considering the recent pick-up in headline inflation and the uncertainty around US trade tariffs and global trade dynamics, at the time.

Large-scale Manufacturing index (LSM) showed YoY growth for the second consecutive month in May, of 2.3%. The recovery in LSM was driven mainly by the Automobile, Pharmaceutical and Textile sectors.

Pakistan had an impressive current account (CA) surplus in FY25, of USD2.1bn (first CA surplus since FY11). This was majorly due to a 27% YoY growth in remittances, to USD38.3bn, and a relatively manageable widening of the goods trade deficit, by 21% YoY to USD26.8bn. SBP's Forex reserves remained stable around USD14.3bn by the end of July 2025.

### **Equity Market Review**

The strong rally in the Pakistan Equity market continued in July 2025. Both the KSE-100 and KMI30 indices reached new all-time high levels. The KSE-100 index rose 10.96% to 139,390 pts, while the KMI-30 index rose 6.50% to close at 196,908 pts.

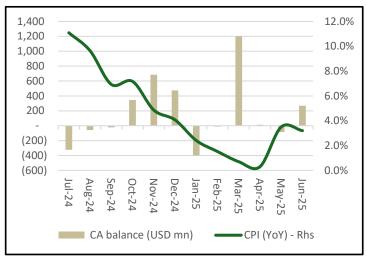

Key developments during the month included: (i) S&P Global, which is one of the major credit rating agencies in the world, upgraded Pakistan's credit rating from CCC+ to B- with a Stable outlook. Pakistan has returned to this rating for the first time since December 2022. (ii) the US government announced an import tariff of 19% for Pakistan, which was lower than the 29% reciprocal tariff of 29% announced in April 2025 and also lower than that announced for India (25%) and some regional competitors.

Mutual funds and Individuals were among the major net buyers during the month, while foreign investors and banks were key net sellers. Banks, Automobiles, Textiles and Fertilizers were among the outperforming sectors.

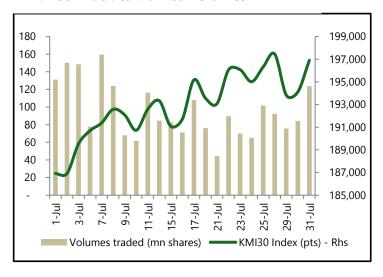

# **Money Market Review**

During July, 3M, 6M and 12M KIBOR rates decreased by 8 bps to 12 bps to close at 11.03%, 11.02% and 11.23% respectively. Similarly, secondary market T-Bill yields of 3M, 6M and 12M decreased by 1 bp to 16 bps. At the end of the month, 3M, 6M, and 12M yields closed at 10.85%, 10.82% and 10.84% respectively. In longer tenor PIBs, 3Y, 5Y and 10Y yields were down by 3 bps to 20 bps to close at 11.12%, 11.37% and 12.10%. In the primary market, two T-bill auctions were conducted during the month where PKR 1.92 trillion were accepted, against a target of PKR 1.55 trillion with major acceptance in the 3 months instrument. On the Islamic front, Government of Pakistan raised PKR 127.7 billion through auction of 1Y, 3Y, 5Y and 10Y floating rate and fixed rate Ijarah. SBP received bids worth PKR 548.5 billion against a target of PKR 200 billion. In the foreign exchange market, the Pakistani Rupee appreciated against the US Dollar by PKR 0.89 in the interbank market and by PKR 0.64 in the open market, closing at PKR 282.87 and PKR 285.50, respectively.
