The risks emanate from various factors that includes, but are not limited to:

- (1) Government Regulation Risk** - Government policies or regulations are more prevalent in some securities and financial instruments than in others. Funds that invest in such securities may be affected due to change in these regulations or policies, which directly or indirectly affect the structure of the security and/or in extreme cases a governmental or court order could restrain payment of capital, principal or income.
- (2) Credit Risk** - Credit Risk comprises Default Risk and Credit Spread Risk a. Each can have negative impact on the value of the income and money market instruments including GOP Ijara Sukuk etc.
 - **Default Risk** - The risk that the issuer of the security will not be able to pay the obligation, either on time or at all;
 - **Credit Spread Risk** - The risk that there may be an increase in the difference between the Profit/return of any issuer's security and the return/markup rate of a risk free security. The difference between this return/mark up rates is called a "credit spread". Credit spreads are based on macroeconomic events in the domestic or global financial markets. An increase in credit spread will decrease

the value of income and including money market instruments;

- (3) **Country or Political Risk** – The uncertainty of returns caused by the possibility of a major change in the political or economic environment of the country such as break down of law and order, war, natural disasters, etc. and any governmental actions or legislative changes or court orders restraining payment of principal or income.

- (7) **Settlement Risk** – At times, the Fund may encounter settlement risk in purchasing / investing and maturing / selling its investments, which may affect the Investment Plan's performance etc.
- (8) **Reinvestment Rate Risk** – In a declining interest/ markup rate economic environment, there is a risk that maturing securities or coupon payments will be reinvested at lower rates, which shall reduce the return of the Fund compared to return earned in the preceding quarters.
- (9) **Events Risk** - There may be adjustments to the performance of the Fund due to events including but not limited to, natural calamities, market disruptions, mergers, nationalization, insolvency and changes in tax law.
- (10) **Redemption Risk** - There may be special circumstances in which the redemption of Units may be suspended or the redemption payment may not occur within six working days of receiving a request for redemption from the investor.
- (11) **Distribution Risk** – Dividend distribution may also be liable to tax because the distributions are made out of the profits earned by fund and not out of the profits earned by each unit holder (Muwakkil). Unit Holders (Muwakkil) who invest in a fund before distribution of dividends may be liable to pay tax even though they may not have earned any gain on their investment, as return of capital to investors upon distribution is also taxable.

OPINION OF SHARIAH ADVISOR ON LUCKY ISLAMIC FIXED TERM FUND

I, as Shariah Advisor of Lucky Investments Limited (Formerly Interloop Asset Management Limited), am issuing an opinion on Lucky Islamic Fixed Term Fund (LIFTF).

In light of above, my opinion is as follows:

I have reviewed the Security structure of the fund, the Modes of Investments, the Trust Deed, the Offering Document and Term Sheet of LIFTF and based on the information available to me, I have not observed any information to conclude that aforementioned are not compliant as per the provisions of Shariah Principles and Rules.

The Fund is based on the principle of Investment Agency (Wakalat-ul-Istithimar) where LIL in the capacity of Wakeel (Agent) shall manage the funds received from the investors and invest on their behalf in Shariah Compliant securities as permitted by Rules, Regulations, and the Shariah Advisor.

Based on the above, I have determined that all the provisions of the fund and its operations are Shariah compliant (without involving Gharar and Riba) and in accordance with criteria established. Therefore, this concludes that there are no Shariah objections on LIFTF.

Allah is the guide to success.

Mufti Muhammad Hassaan Kaleem,
Shariah Advisor,
